## **Breakthrough Provision**

A few weeks ago I had a vision. Very vivid and bright.

To the left of the vision was a bob wired fence in an open field. The setting was tranquil and peaceful. Toppling over the bob wire fence and falling in between the fence was bright green blades of grass. The blades of grass were flowing and blowing in a soft breeze. From behind and from the neck up only, was a black cow. It's coat was extremely shiny and very vivid like the grass, it was beautiful. The cow had not a care in the world. It was standing close to the fence with ease, while eating the grass that flowed from the top.

I felt the Lord say, that we are entering into a season of reward & supernatural provision. Multiplication. Where there has been road blocks there will now be unhindered provision & breakthrough. It will come quickly and with ease. The Lord said, I'M GOING TO BLESS THE WORK OF YOUR HANDS. You will clearly see and know that God's hand is moving on your behalf. You will one day be grazing along the way and then suddenly everything will change vividly and openly. Watch God move. Every good and perfect thing comes from the Father above. (the top) His timing is perfect. Trust Him and believe. Get ready to receive.

Isaiah 30:23
